Fulfillment Services

Friday, August 21, 2015

NOTES:

1) Items in this catalog may have "Unique Style Considerations" clearly indicated to the right of the pricing columns. Please review the Glossary on the last page of this catalog for detailed definitions, as certain items may not carry a warranty, may incur incremental costs, or may have style-specific limitations.

2) Style-specific color & size info for most items can be found using the links below each image or at: www.SportswearCollection.com/Fulfillment

DYE SUB: Product Requires Dye Sublimation

Applies to products that are either 100% polyester or specially treated for sublimation.

Due to material content and an incompatibility with DTG inks, these products require a printing process known as Dye Sublimation. The resulting prints are very vibrant and durable. We recommend samples from this category before adding them to fulfillment. NOTE: Dye Sublimation ONLY works on lighter colors and any color garment other than WHITE, the resulting print will have a color shift towards the color of that shirt.

50%-90% COTTON: Print Quality Concerns

Applies to Triblend, 50/50 garments, 80/20 sweatshirts, etc.

DTG printing inks were designed for high cotton content garments; however, many clients have had success printing & selling garments that are as low as 50% cotton. Prints are slightly less vibrant and have a unique look (think "vintage"), but we have not received complaints as a result of using these garments. NOTE: If using Product Image Creation, images will not show the 'fade' of the actual print. Consider photographing these products instead of using the auto-generated images.

FOR ALL GARMENTS LESS THAN 90% COTTON WE DO NOT GUARANTEE THE PRINTS FOR VIBRANCY OR WASHABILITY. ALL OF THESE GARMENTS ARE PRINTED AT CLIENT'S RISK. They are offered because many clients like the results, have had success selling them, and enjoy the ability to offer a softer garment.

RIBBED: Underbase Print Quality Concerns

Applies to garments that are constructed of a significantly ribbed material.

Ribbed material can dramatically stretch, resulting in the distortion of a printed design. In addition, stretching can make UNDERBASED prints pull apart.

FOR ALL GARMENTS DESIGNATED AS RIBBED, WE DO NOT GUARANTEE UNDERBASED PRINTS FOR VIBRANCY, DURABILITY, OR WASHABILITY. UNDERBASED DESIGNS ON THESE GARMENTS ARE PRINTED AT CLIENT'S RISK. They are offered because many clients like the results with non-underbased designs, have had success selling them, and enjoy the ability to offer a stretchier, ribbed garment.

TAGLESS: Branding Restrictions

Applies to garments that do not have a manufacturer's label sewn into the collar.

WE WILL NOT ATTACH CLIENT HANG TAGS TO A GARMENT IF THERE IS NO EXISTING COLLAR TAG. Rather, we will place the hang tags loose in the package with the garment.

THIN MATERIAL: Print Quality Concerns

Applies to burnout, distressed, some organics and other thin garments.

Due to the construction of burnouts and distressed garments, there is typically not enough material to lay down a solid print, and the resulting image will blend with the material pattern in the garment. The design will be lighter in the thinner regions, and darker in the thicker regions. Often times, some of the ink will pass through to the inside of the back of the garment, and in very rare cases it can be seen from the back of the shirt (on white and very light-colored garments). These garments render a very unique looking print, so we recommend obtaining samples prior to adding them to fulfillment.

Certain organic materials expand slightly when ink is applied to the garment, and when used for underbase printing, this causes the white layer to be exposed around the entire print. If underbasing on one of these garments, we suggest using a black or white outline around the art, as we cannot guarantee the white layer will not show after the full underbase print.

FOR ALL GARMENTS DESIGNATED AS THIN MATERIAL, WE DO NOT GUARANTEE THE PRINTS FOR VIBRANCY, WASHABILITY, OR INK PASS THROUGH. ALL OF THESE GARMENTS ARE PRINTED AT CLIENT'S RISK. They are offered because many clients like the results, have had success selling them, and enjoy the ability to offer a softer, uniquely textured garment.

TEMPLATE: Requires Unique Art Template

Applies to certain products requiring unique art placement and/or sizing.

PRINTING ON PRODUCTS IN THIS CATEGORY REQUIRES A VERY SPECIFIC ART TEMPLATE. "STANDARD DESIGNS" PROVIDED FOR "REGULAR" PRODUCTION CANNOT BE PRINTED ON THESE PRODUCTS. Contact management to obtain the design templates specific to these items.

PATTERNED GARMENT: Print Quality Concerns

Applies to garments with pre-printed patterns such as camouflage and tie-dye.

DTG printing inks absorb into garment fibers. As a result, prints incur a slight color shift due to the underlying color of the garment. When designs are printed on garments containing patterns, the ink color shifts relative to the underlying garment color, and the pattern may show through the design.

FOR ALL GARMENTS DESIGNATED AS PATTERNED WE DO NOT GUARANTEE THE PRINTS FOR VIBRANCY OR THE FACT THAT THE UNDERLYING PATTERN MAY SHOW THROUGH THE PRINT. ALL OF THESE GARMENTS ARE PRINTED AT CLIENT'S RISK. They are offered because many clients like the results and have had success selling them.
